Boitanio Mountain Bike Park Gets New Look

The Boitanio Mountain Bike Park is about to get a revamp.

The Williams Lake Cycling Club has received approval from the City of Williams Lake to revamp the Bike Park, with a new “Pump Track” at the front of the park, new trails for kids and a refurbished perimeter fence and main kiosk sign.

“The City is always proud to support community groups working to improve amenities for everyone to enjoy,” said Ian James, Director of Community Services. “This work will improve the trails and encourage newer and younger riders who are interested in the sport to participate and get active.”

Construction is expected to continue into the fall of 2020. The Bike Park may be closed periodically during this time to ensure the safety of contractors and the public.

“I’m excited to see how the park will turn out when everything is done,” James added. “It’s going to be a great improvement for the sport in Williams Lake.”

General maintenance and landscaping of the area will also be undertaken to improve the overall look of the park.
