### Water Main Break

A water main break has been identified on Hodgson Road near the truck wash station and Wotzke Drive intersection.

The water break is depleting the Woodland Drive reservoir and will affect properties in the Westridge and Golf Course subdivisions.

The City is asking the properties in these areas to please conserve water until the water break can be repaired. Crews are on scene and the work has begun, but the estimated time of completion is unknown at this time.

We ask for your cooperation and patience as we work through this repair.
