Williams Lake, BC
V2G 1N3

UPDATE – BOIL WATER ADVISORY LIFTED

A water main break was identified on Hodgson Road near the truck wash station and Wotzke Drive intersection on January 10, 2021. During repair work two additional breaks were found. The City, in consultation with Interior Health, issued a Boil Water Advisory on January 13, 2021. This Boil Water Advisory affected customers in the Westridge and Golf Course subdivisions, Terra Ridge and along Wotzke Drive and Hodgson Road.

Water samples from the affected area were taken January 13, 14 and 18. Samples are couriered to a lab and take a number of days to receive results for potability.

All samples tested were potable and safe to consume.

In consultation with Interior Health, the City is lifting the Boil Water Advisory effective immediately, January 21, 2021.

The City apologizes for this inconvenience and would like to thank residents for their patience and understanding through this event.
